

Table of Contents

Contents	Page
Acknowledgements.....	i
Preface.....	ii
Abstract.....	iii-iv
I. Introduction.....	1-2
Background: Sustained Visual Attention: A Literature Review.....	2-13
fMRI of Sustained Visual Attention.....	2-5
Development of Sustained Visual Attention.....	6-8
The Corpus Callosum in Sustained Visual Attention.....	8-9
The Anterior Cingulate in Sustained Visual Attention.....	9-10
Neuropsychiatry and Sustained Visual Attention.....	10-12
II. Methods.....	14-21
Stimuli.....	14-15
Figure 1: Sustained Visual Attention Task.....	14
Table 1: MacStim Program Source Code.....	15
Recruitment of Participants.....	16
Participants.....	16
The BOLD fMRI Technique.....	17-18
Scanning.....	18
Experiment.....	19
Post-processing.....	19-20
Figure 2: SPM96 Parametric Matrix.....	21
III: Results.....	22-26
Figure 3: Brain Activation in the Medial Frontal Cortex.....	22
Table 2: Brain Areas of Activation.....	23
Figure 4: Lobes of Activation in this Study.....	24
Figure 5: Cortex and Deeper Layers of Activation in this Study.....	25
Figure 6: Brodmann's Areas of Activation in this Study.....	26
IV: Discussion.....	27-37
Table 3: Localization of Sustained Visual Attention in the Literature and this Study...	27
Boxcar versus Event-Related Design.....	29-33
Event-Related Design and Analysis.....	33-35
Hemodynamic Variability.....	35-37
V: Conclusions.....	38-39
VI: References.....	40-47
Recruitment Posting.....	Appendix A I
Recruitment Questionnaire.....	Appendix A i i
Abstract Publication.....	Appendix B i-ii
Miniature Conference Poster.....	Appendix C
